ACC Panel Finish

PRODUCT DESCRIPTION: A special cleaner for architectural precast in particular and all concrete in general where general purpose cleaning is necessary and surface etching is of concern. It combines a blend of mild, fumeless acids and inhibitors, which clean and brighten exposed aggregate concrete, in particular without frosting or burning the aggregates as when using muriatic acid or hydrochloric based cleaners.

AREA OF APPLICATION: Used for cleaning architectural and structural panels after long periods of storage at the plant or at the site. Safe for use even after the installation of windows and doors, when accompanied with proper pre-wetting of the surfaces prior to use.

DIRECTIONS: Use concentrated or dilute with up to 4 parts water. Apply to the pre-wet surface with a brush and scrub vigorously. Flush sufficiently with water. Re-apply if necessary.

TECHNICAL DATA: Appearance and odor: Clear odorless solution. Specific Gravity: 1.206. pH of 1% solution 1-2. Solubility in water: Complete. All surfactants are biodegradable.

SHELF LIFE AND STORAGE: Two years from manufacturing date in closed original container.

PACKAGING: 5 gal. Plastic Pails. 55 gal. Plastic Drums

SAFETY: Acid composition, corrosive product. For use by professionals only. Keep out of the reach of children. Use acid proof gloves, aprons, goggles and face shields. Avoid contact with skin. Consult material data safety sheet before use. Store in cool dry place, well ventilated and away from alkaline materials.

SHIPPING CLASSIFICATION: UN 1805 Phosphoric Acid, 8, PG III. Some shipping restrictions may apply. Consult with individual carrier for details.
